**Alternative Einbaumöglichkeit durch Fachfirma | Alternative installation by a professional company | Installation alternative par une entreprise spécialisée
Installazione alternativa tramite azienda specializzata | Instalación alternativa por empresa especializada**

- DE** Zur Stabilisierung kann die Klappe mit einem Holzrahmen verstärkt und in das Fliegengitter integriert werden. Die Umsetzung sollte durch eine qualifizierte Fachkraft (Schreiner/Schreinerin) erfolgen.
- EN** For added stability, reinforce with a wooden frame and integrate into the insect screen. Installation by a qualified professional. (carpenter).
- FR** Pour plus de stabilité, la trappe peut être renforcée par un cadre en bois et intégrée à la moustiquaire. Installation par un professionnel qualifié (menuisier).
- IT** Per una maggiore stabilità, lo sportello può essere rinforzato con un telaio in legno e integrato nella zanzariera. Installazione da parte di un professionista qualificato (falegname).
- ES** Para mayor estabilidad, la trampilla puede reforzarse con un marco de madera e integrarse en la mosquitera. Instalación por un profesional cualificado (carpintero).
